Dear prospective employer

I am writing to you regarding Jade Kearns. I have known Jade for 4 years now as a friend and as a class member while studying towards our Diploma in ICT and Application Development at Cape Peninsula University of Technology. During this time, I have known Jade to be an exceptionally hard working and driven individual when it comes to his school work. I also believe Jade to be a man of great character who is loyal and dedicated to the cause. I believe that Jade would be an excellent candidate for any position that he applies for.

During our first year of study, we were grouped together on team assignments. We excelled and developed a friendship, and thus have remained on the same team for the full duration of our course. I have found it easy to work with Jade because I can always trust that he will do his share of the duties above and beyond that which is required. He often is the driving force behind the management of our projects. I often joke that Jade is 50% complete with an assignment before we have even received it.

In terms of competencies, I can definitely endorse Jade's talent for design. I always know that our applications or websites will have amazing UI. He also continually improves his skills by researching new technology to assist in completing the solution he has for a problem. I can also attest to his loyalty and dedication. Studying part time is a major commitment and one that Jade has thrown himself at 100%. There has not been a time that he is not at class when most others have chosen to bunk. I have witnessed Jade to be a leader who is well liked and respected by his peers.

Over the past 4 years I have come to know Jade as a friend and colleague who displays a host of characteristics that will benefit any organization should they hire him. I wish him all the best in his future endeavours. If you have any further questions, please feel free to contact me by phone or email.

Yours Sincerely

Adam Wesson
